CHRONIC PAIN & PAIN MEDICATION (controlled substances) AGREEMENT

INFORMED CONSENT FOR CONTROLLED SUBSTANCE TREATMENT

NAME: \_\_\_\_\_

Birth Date: \_\_\_\_\_

It is important that you are informed regarding the risks and responsibilities of undergoing chronic pain and opioid therapy. Controlled substances, opiate pain medications and muscle relaxants may be used in treating your condition. These prescription medications have the potential for misuse and/or abuse and are strictly regulated by state and federal agencies. This agreement is meant to both inform and protect patients and provide necessary guidelines under which your treatment will be properly administered, consistent with laws governing the appropriate prescription and use of controlled substances for the treatment of chronic pain. It is required that you have read, understood, and agreed to comply with these policies in order to continue to receive treatment with our clinic. Failure to follow these policies is grounds for dismissal from the clinic. Your treating physician or professional healthcare provider also reserves the right to determine the appropriate course of treatment regardless of continued compliance with these policies. The words "we" and "our" refer to the clinic and staff of Pain Management of Oklahoma. The words "I", "you", "me", or "my" refer to you as the patient.

- 1. I agree not to seek or accept a controlled substance from any other physician, healthcare provider, dentist, or individual while I am receiving controlled substance(s) from any of our clinics.
2. I understand that it is illegal and may endanger my health. An exception may be granted for treatment during an inpatient hospitalization or with the advance notification and agreement of your treating physician or provider.
3. I am personally responsible for my medication. Prescriptions and/or medications will not be replaced if lost, stolen, or destroyed. I understand that a prescription may not be refilled until 28 days after the date of the last prescription provided.
4. I agree to comply with routine drug screening in the form of urine, oral swab, or blood testing in accordance with clinic protocol or at the discretion of your treating physician or professional healthcare provider.
5. I understand that while taking controlled substances, my judgment and/or motor skills may be impaired which could result in harm to myself and/or others if required precautions aren't followed. I also understand that it is my responsibility to comply with all state laws including those related to refraining from driving a vehicle while impaired.
6. I understand that the main goal of treatment is to improve my ability to function and reduce pain. In addition, it is likely that my pain will not be completely eliminated, despite continued treatment.
7. I understand that the long term advantages and disadvantages of chronic controlled substance use have yet to be scientifically determined. I understand and accept that there may be unknown risks associated with long-term controlled substance use.
8. I will not consume alcohol, illicit drugs, or illegally obtained medications in conjunction with a prescribed controlled substance that is being provided to treat my pain. I understand that any signs or evidence of the misuse, abuse, or diversion of controlled substances are grounds for dismissal from the clinic.
9. I understand it is illegal to attempt to obtain or obtain a controlled substance by withholding information or providing false information to a treating physician or healthcare provider. I also understand that it is illegal to sell, divert, share, or provide a controlled substance to any individual other than the person for which the prescribed medication was intended. Any signs or evidence of this is grounds for dismissal.
10. I have been fully informed by my treating physician or healthcare provider of the potential for the development of tolerance, dependence, withdrawal, addiction, overdose, and/or death related to the controlled substance(s) I have been prescribed. I understand and personally accept these potential risks and side effects.
11. I understand that failure to comply with the responsibilities listed here may result in my dismissal from the clinic and by signing below indicate my understanding, agreement, and acceptance of the information contained in this written agreement.

## Policy Statement

*The mission of PMO is to serve patients in their management of pain through a patient-centered approach. Our goal is to ensure your healthcare needs are met while your pain level is diminished and quality of life is improved.*

As a part of your treatment plan, patients may be asked to:

1. Please give a 24 hour notice of appointment cancellation. A late-cancellation or no-show fee of \$40 will be required before another appointment is made.
2. We utilize a team-approach in caring for our patients. Patients may have appointments with a Nurse Practitioner or Physician assistant for routine follow up appointments. These providers always consult with & work closely with our Physicians.
3. PMO requires each patient has a Primary Care Physician.
4. Bring your medication ONLY if you are asking for a medication change or if we ask you to bring them.
5. Your medication may be checked for compliance with a random pill count.
6. The patient may be asked to count their medication in front of PMO staff. Medication should remain in the patient's possession AT ALL TIMES.
7. To maintain high levels of care & compliance, PMO providers follow the standard of care guidelines of the following:
  - Oklahoma state department of health
  - Oklahoma Board of Narcotics & Dangerous Drugs
  - Oklahoma Prescription Monitoring Program
  - Oklahoma Anti-drug Diversion Act
  - CDC Guidelines for prescribing opioids for chronic pain
